Record Walkthrough for module03 Project

Our repository contains:

1/A well-organized Jupyter Notebook with all the codes written for this project, it also has all the libraries that were necessary for the completion of this task.

2/A power point presentation saved as a pdf file highlighting our finding for this project.

3/A blog highlighting the different step we have taken to bring this project to completion.

4/The last but not the least is this record walkthrough detailing what is in our repository.
